

Working on It: Continuous Color in the Garden

Being realistic?	What it is	What it should be (Guidelines not rules in stone!)										
Viewer distance from this area:		Fills "fixed look" until turn head/shift eyes. Too far? Hide bed and invite viewer closer.										
Number of species there		Each species given at least 10% of area covered by a viewer's fixed look.										
Size of bed		Fills fixed look. Some dimension at least 50% of the distance "viewer to bed"										
Warm-up: Seasonal interest												
	Season »	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Wint	
Plant name												
Getting Serious: Not just <i>what</i> is planted there but <i>how</i> it's tended												
	Season »	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Wint	
	Peak interest »		<i>Fl</i>	<i>Sd</i>						<i>Lf</i>		
	Care needed for max. color »	<i>cut</i>										<i>Cut in March: remove last year's leaves</i>
Plant name												

Working on It: Continuous Color in the Garden

Getting Serious: Not just <i>what</i> is planted there but <i>how</i> it's tended
